

Mississippi River between Missouri River & Minneapolis

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG ®

Location

Mississippi River Between Missouri River and Minneapolis

State(s)

IA,IL,MN,MO,WI

Congressional District(s)

IA-1, IA-2, IL-16, IL-17, IL-18, MN-1, MO-6, WI-3

Status

Project in operation.

Description

The project consists of a 314-river-mile reach of 9-foot commercial navigation channel from Guttenberg, Iowa, downstream to Saverton, Missouri. It includes 14 locks and 11 dams (L/Ds) at 12 sites from Lock 11 to Lock 22. The navigable portions of this river and the locks and dams that allow waterway traffic to move from one pool to another are integral parts of a regional, national, and international transportation network. Recreation facilities include 25 public recreation areas and the Visitor Center located at Lock & Dam 15. Typical recreation and lease receipts are \$1,000,000, with regional economic impacts estimated at \$380,000,000 with 13,500,000 visits.

Summarized Project Costs

Budget for FY2017	\$84,666,000
House Allocation for FY 2017	TBD
Senate Allocation for FY2017	TBD
FY 2016 Allocation	\$82,538,000

Additional Project Information

These numbers represent an illustrative distribution of operation and maintenance activities subject to revision during the course of the year, and therefore individual project estimates should not be considered as budget amounts.

Major Work Item (This Fiscal Year)

Funds are used for routine operation and maintenance of navigation and related infrastructure; minimal operation and maintenance of visitor center, day-use and overnight recreation areas and facilities; and minimal annual stewardship activities to protect the health, sustainability and integrity of the public lands associated with the project. Funds are used for nonroutine items: Dewatering at Locks 13 and 21, Construction of Bulkhead Recesses at 4 L/D sites, Procurement of Miter Gates for L/Ds 12 and 15, Repair Dam 18
